

IEYI 2026

(International Exhibition for Young Inventors)

Beijing, China

RULEBOOK ver.1.2
2026.4.2

Hosted by: IEYI International Organizing Committee
Co-hosted by: IEYI China Organizing Committee
Co-hosted by: National Aquatics Center
Organized by: International Association of Invention Promotion
Conveying by: ITCCC Innovative Education
Email: ieyi@itccc.org.cn

Change Log

- 2026.03.25 Rulebook Released

- 2026.04.01 v1.1

- Cover page: Conveying by ITCCC Innovative Education
- 3.3 Online Track: Open for teams from countries and regions unable to participate in the Onsite Track, teams cannot participate in both the Onsite Track and the Online Track simultaneously. Online track participation is limited to a maximum of 10 teams (including invention and artwork).
- 8.2 Overall Award for Artwork

- 2026.04.02 v1.2

5.4.1 On-site Track: The first 10 teams from each country or region are exempt from the registration fee. For each additional team beyond this limit, a registration fee of 150 US dollars per team will be charged.

- ◆ **Students:** The registration fee includes lunch on July 28 and July 29, medals, digital certificates, souvenirs, and admission tickets.
- ◆ **Team Leaders:** Team Leaders are required to register in the dedicated system and will receive admission tickets. For each submitted work, up to three Team Leaders may be registered with the fee waived. Any additional Team Leaders beyond this limit must purchase lunch at a rate of USD 20 per person in advanced. The registration fee includes lunch on July 28 and July 29; souvenirs are not included. Each submitted work must be associated with one Team Leader.
- ◆ **Parents:** Parents are required to register in the dedicated system and will receive admission tickets. Souvenirs are not included. Lunch is not included. Lunch may be purchased separately at a rate of USD 20 per person in advanced.

5.4.2 Online Track: USD 40 per team.

- ◆ Digital certificates will be provided. Medals and souvenirs are not included.

1. About IEYI 2026

First established in Tokyo in 2004, the International Exhibition for Young Inventors (IEYI) has grown into a distinguished international platform for youth innovation and cross-cultural exchange, now encompassing nearly 40 member countries and regions worldwide.

IEYI 2026 continues this proud tradition, bringing together young inventors and artists under one roof to showcase their creativity, share ideas, and forge lasting international friendships.

Beijing, a city where cutting-edge technology and profound cultural heritage converge, will offer students an unparalleled opportunity to experience the forefront of innovation and the depth of human civilization firsthand - from world-class research institutions and historic landmarks to vibrant academic exchanges. Hosting the IEYI in Beijing is therefore especially meaningful, and it is our sincere hope that this event will provide a platform through which young participants and innovation-promoting organizations from each country can deeply engage with one another, sparking new ideas and building bridges that transcend borders.

The Essentiality of IEYI

The main objectives of IEYI are as follows:

1. To deepen students' understanding of the world around them by stimulating scientific thinking and fostering the learning of core concepts in science and technology.
2. To provide students with design knowledge and skills necessary for their future careers.
3. To inspire creative approaches to innovations and inventions.
4. To cultivate core competencies, including problem-solving, critical thinking, and communication skills, in students.
5. To enhance cultural exchange and foster the acculturation of youth invention.

IEYI 2004 – 2025

1 st	2004	Tokyo, Japan	11 th	2015	Taiwan
2 nd	2005	Malaysia	12 th	2016	China
3 rd	2006	India	13 th	2017	Nagoya, Japan
4 th	2007	Indonesia	14 th	2018	India
5 th	2008	Chinese Taipei	15 th	2019	Indonesia
6 th	2009	Nigeria	16 th	2020	(Digital Exhibition)
7 th	2010	Vietnam	17 th	2021	
8 th	2012	Thailand	18 th	2022	
9 th	2013	Malaysia	19 th	2023	
10 th	2014	Indonesia	20 th	2024	Chinese Taipei
			21 st	2025	Osaka, Japan

2. Important Dates

Date	Event
March 23, 2026	Start of registration
May 31, 2026	End of registration
July 27 to 30, 2026	IEYI 2026 in Beijing, China

3. Contest Participants, Divisions and Tracks

Participants can submit either an invention or artwork in the onsite track or the online track.

3.1 Contest groups: The International Exhibition for Young Inventors is divided into two divisions.

- (1) *Junior Group* for students under 14.
- (2) *Senior Group* for students 14 and above.

3.2 Invention: Each team can have up to 3 members. One person may not be in more than one team.

Artwork : Artwork should be drawn by one person only.

3.3 Online Track: Open for teams from countries and regions unable to participate in the Onsite Track, teams cannot participate in both the Onsite Track and the Online Track simultaneously. Online track participation is limited to a maximum of 10 teams (including invention and artwork).

4. Exhibition Information

4.1 Dates

Exhibition: July 28 to 29, 2026

Award ceremony: July 30, 2026

4.2 Location

National Aquatics Center "Water Cube",
11 Tian Chen Dong Lu, Chao Yang Qu, Beijing, China, 100107

Tentative Program of IEYI 2026(Tentative)

	July 27 MON	Jul 28 TUE	Jul 29 WED	Jul 30 THU	Jul 31 FRI
	Day1 Arrival	Day2	Day3	Day4	Departure
08:00	Teams arrive in Beijing, China	Door Open (08:30-09:00)	Door Open (08:30-09:00)	Door Open (08:30-09:00)	Departure
09:00		Opening Ceremony (09:00-10:00)	Exhibition & Judging (9:00-12:00)	Award Ceremony & Closing (9:00-11:00)	
10:00		Judge Meeting & Booth Setup (10:00-12:00)		Cultural Visit (Indoor Venue) (11:00-12:00)	
11:00					
12:00		Lunch & Break (12:00-14:00)	Lunch & Break (12:00-14:00)	Free time	
13:00					
14:00		Exhibition & Judging (14:00-17:00)	Team Interaction & Exchange (14:00-16:00)		
15:00	Place restoration (16:00-17:00)				
16:00			Team Check-in & Registration (Designated Hotel) (15:00 – 18:00)		
17:00					

5. Registration

5.1 Participation requirements

- 5.1.1 Contestants must be students between 6 and 19 years old (i.e. students from elementary schools, junior high schools, senior high schools, vocational high schools, or other equivalent schools).
- 5.1.2 Contestants and advisors should provide their official Romanized names (i.e. spelled using the English alphabet), as shown on their passport, in their registration documents. The digital award certificates will be shown in English based on the names provided in the registration documents and can be accessed and downloaded from the certificate system. Only digital certificates will be provided; no printed certificates will be issued.

5.2 Date of registration:

The registration period is from **March 23, 2026** to **May 31, 2026**.

5.3 Documentation:

5.3.1 Registration Process: All information must be submitted in English by Designated regional organizer. Teams are required to submit their project information through the online collection system. In addition, teams must provide contact person information, project and team member details, as well as the full delegation member information in the Registration Form for organizational and logistical arrangements.

5.3.2 Limitation: The IEYI 2026 is anticipating a total of 300 entries, and each country and region should generally limit itself to 10 entries (including art). The addition of any more entries should be consulted with ITCCC.

Each participant CANNOT be in multiple teams at the same time.

5.3.3 Document Submission Deadline: Upload all the required documents for your team to our official collection system and sent the **Registration Form** to official email before **May 31, 2026**, Beijing time (GMT+8).

5.4 Registration Fee:

5.4.1 On-site Track: The first 10 teams from each country or region are exempt from the registration fee. For each additional team beyond this limit, a registration fee of 150 US dollars per team will be charged.

- **Students:** The registration fee includes lunch on July 28 and July 29, medals, digital certificates, souvenirs, and admission tickets.

- **Team Leaders:** Team Leaders are required to register in the dedicated system and will receive admission tickets. For each submitted work, up to three Team Leaders may be registered with the fee waived. Any additional Team Leaders beyond this limit must purchase lunch at a rate of USD 20 per person in advanced. The registration fee includes lunch on July 28 and July 29; souvenirs are not included. Each submitted work must be associated with one Team Leader.
- **Parents:** Parents are required to register in the dedicated system and will receive admission tickets. Souvenirs are not included. Lunch is not included. Lunch may be purchased separately at a rate of USD 20 per person in advanced.

5.4.2 Online Track: USD 40 per team.

- Digital certificates will be provided. Medals and souvenirs are not included.

6 . Invention Criteria

6.1 Exhibition Rules

The entry must comply with all exhibition rules. It must be safe and should not fall under the domain of basic scientific research or pure art. General criteria are listed below:

- (1) Exclusion 1: Poems, songs, short stories, sculptures, and other purely artistic entries will NOT be qualified for this exhibition.
- (2) Exclusion 2: Basic or pure scientific research experiments involving living organisms will NOT be qualified for this exhibition.
- (3) Exclusion 3: Inventions must be safe. NO explosives, corrosives, poisonous substances and combustible materials are allowed.

6.2 Invention Group

6.2.1 Invention Categories and Classifications

An invention must be registered in one of the following six categories (1)–(6) :

6.2.1.1 Invention Category

(1) Disaster Management / Safety & Health

Disaster Management: Inventions useful for detection and/or prevention of natural disaster, or post-disaster management. (e.g., systems, technologies, products, etc.)

Safety & Health: Inventions that provide a contribution to safety and health. (e.g., devices, system, practical solutions)

(2) Entertainment & Sports / Education

Recreation & Sports : Inventions that enhance recreational activities. (e.g., sports, entertainment, etc.)

Education : Inventions that are useful in classrooms and other educational settings.

(3) Sustainable Agriculture Technology

Inventions that improve the quality of agricultural practices or solve modern food security issues. This category is only for inventions that fall under systems, technologies, or products, and not the food item itself.

※Living organisms should not be used.

(4) Convenient Living

Inventions for improving convenience in everyday life. (e.g., cleaning tools, kitchen tools, etc.)

(5) Social Care

Inventions that aim at enhancing convenience and accessibility for individuals from minority groups or those with special needs (e.g., children, individuals with a certain condition (e.g. disability), individuals with a certain socioeconomic status, etc.).

Inventions that contribute to improving convenience and addressing specific needs for elderly individuals.

(6) Visionary Technologies

Green Technology & Sustainability : Inventions that promote sustainability, reduce pollution, advance energy efficiency, and are environmentally friendly.

Inventions using Aerospace Technology, Artificial Intelligence, and/or the Internet of Things (IoT)

6.2.2 Specifications

6.2.2.1 Invention Materials

Inventions will be displayed in public. Participants are free to use materials of their choice, provided that they are durable, not easily breakable, and safe.

Inventions made of dangerous, perishable materials, or living organisms will be disqualified.

6.2.2.2 Specification

(1) Weight and Size

An invention should weigh no more than **10 kilograms**. **The size of the invention should not exceed 1 meter in width, length, no height limite.**

* Note 1: If the invention exceeds the size restriction, it is advised that participants use a miniature model to explain the purpose and function of the invention.

6.2.2.3 Presentation

(1) Presentation time: no more than **3 minutes**

(2) Presentation language: English

(3) Presentation Content (at least the following three items should be included)

-Outline of the entry

-Background of the entry and problem to be solved by the entry

-Demonstration

For inventions whose characteristics are found in hardware, the contestant should operate the hardware to demonstrate the function, structure, characteristics (difference from existing technology), action, effects, etc. of the invention.

For inventions whose characteristics are found in software, the contestant should at least provide a drawing/figure (e.g. flowchart) that illustrates the operation/process/etc. In addition, the contestant may use an image file to provide

an image of input and/or output. The contestant may also use an electronic device (e.g. PC) to demonstrate the operation/process/etc. on the device.

Participants can use handouts, brochures, or posters (A0 size or smaller), Power Point, video presentation, or other supplementary tools to showcase and explain their inventions.

(4) If electricity is required, a limit of up to 1,500 watts / 220 volts is allowed per invention. (Bring your own converter and plug (type A), if necessary.)

6.3 Artwork Group

6.3.1 Theme: “Science of Tomorrow”

*What will the future be like?

*What kinds of new science and technology will we have?

*How will the environment and our lives be changed?

Note: Use your imagination to create your vision of the “Science of Tomorrow”, a future scenario of new science and technology.

6.3.2 Entry requirements:

- (1) The entry should generally be made using **B4 drawing paper (38 cm * 27 cm)**.
- (2) Present your entry in 2D form.
- (3) Any type of drawing tool may be used (e.g., paint, crayons, markers, etc.). Must be hand-drawn. Use of digital tools is not accepted.
- (4) Provide a title for your entry and a brief description (no more than 300 words) .

6.3.3 Presentation:

- (1) Presentation time: no more than **3 minutes**
- (2) Presentation language: English
- (3) Presentation Content (at least the following two items should be included)
 - Outline of the entry
 - Background of the entry and problem to be solved by the entry

Participants can use handouts, brochures, or posters (A0 size or smaller), Power Point, video presentation, or other supplementary tools to showcase and explain their artwork.

6.3.4 Other requirements:

- (1) The entry must not infringe copyrights or portrait rights.

- (2) AI must not be used in the conception or creation of the entry.
- (3) Entries that deviate from socially accepted norms will not be accepted.
- (4) If a submitted entry does not meet these requirements, the entry will be disqualified from the competition.
- (5) Entries may be displayed on the IEYI China official website.

7. Judging Criteria

The judging panel will be primarily comprised of delegates from the member institutions / countries. The cumulative score of each invention from all judges will form the basis for most of the awards. The invention is judged from multiple aspects by experts in related fields. Each judge will spend a maximum of 2 minutes judging each team.

7.1 Scoring criteria for invention

Scoring Criteria		
Creativity (40%)	Core mechanism/solution has a clear novelty; can articulate key differences from existing approaches	36–40
	Some innovation or meaningful improvement, but mostly combination/optimization; differences valid but moderate	30–35
	Conventional thinking; novelty is mostly "verbal packaging"; can only claim "ours is better" without explaining why	20–29
	Largely copied/highly homogeneous; or logically contradictory, failing to form a valid creative idea	0–19
	Note: If there is an application (patent, utility model, trademark, etc.) corresponding to the entry, the application may be taken into consideration.	
Marketability (30%)	Who uses it / why / how to implement — fully explained and credible	27–30
	Market logic mostly holds, but missing one or two pieces of evidence or detail	21–26
	Only claims "huge market / very useful" but unclear on customers or path to market	15–20
	No market logic or mismatched with the project	0–14
Usability (30%)	Principle/structure/process is clear and reproducible; stable demo; concise presentation; Q&A answers are direct and on point	27–30
	Basically feasible or demonstrable, but stability/details are average; expression mostly clear but slightly roundabout	21–26
	Key steps unclear or demo fails; evades Q&A; expression hinders judges from assessing the true level of the work	15–20
	Clearly infeasible / high risk with no mitigation; or expression too chaotic to evaluate	0–14
	Note: Score includes Presentation, 10 points weight	

※Note: The total score from each judge will be ranked. The judging panel will discuss and determine the final score for each invention based on the ranking scores rather than the raw scores

7.2 Scoring criteria for art entry

Scoring Criteria		
Comprehensive Evaluation (40%)	The artwork prepared by the student and content being presented are given a comprehensive evaluation as to how well they depict future advances in technology and scientific knowledge. Includes on-site presentation, explanation & expression.	
	Clear tech theme; cohesive narrative; Student articulates concept—visual—viewpoint link well (36–40)	36–40
	Theme mostly clear but needs some explanation; Concept too broad or logic weak (30–35)	30–35
	Tech element unclear or forced; Relies on verbal gap-filling; expression scattered (20–29)	20–29
	Weak or inconsistent link to tech theme; Explanation cannot support it (0–19)	0–19
Creativity (30%)	Novelty of concept	
	Unique concept/perspective; strong personal expression; not formulaic (27–30)	27–30
	Some originality, but still a personal take on common sci-fi/tech tropes (21–26)	21–26
	Clearly formulaic (collage of common elements); weak originality (15–20)	15–20
	Obvious copying, imitation (0–14)	0–14
Composition (30%)	Value as an artwork (color, form, texture, line, space, structure, etc.)	
	Clear visual focus; good layering, rhythm & spatial relationships; high completion (27–30)	27–30
	Stable composition; fairly complete, but minor issues in parts (21–26)	21–26
	Unclear hierarchy or scattered structure; technical issues hinder readability; incomplete (15–20)	15–20
	Hard to read or clearly unfinished (0–14)	0–14

※Note: The total score from each judge will be ranked. The judging panel will discuss and determine the final score for each invention based on the ranking scores rather than the raw scores.

8 . Awards

The on-site track and the online track will be reviewed independently.

8.1 Overall Award The following will be awarded to each of the Junior Group and Senior Group

8.1.1 Gold Award: The top 10% (in terms of total score) of the inventions will be awarded the gold award.

8.1.2 Silver Award: The top 11% to 30% (20% of all entries) of the total score will be awarded the silver award.

8.1.3 Bronze Award: The top 31% to 60% (30% of all entries) of the total score will be awarded the bronze award.

8.1.4 Bonus Gold: +1 Gold slot per 8 entries per country/region.

8.1.5 Honorable Mention: Invention other than the above will be awarded an honorable mention.

8.2 Overall Award for Artwork

8.2.1 First Prize: The top 10% (in terms of total score) of the artwork will be awarded the First prize.

8.2.2 Second Prize: The top 11% to 30% (20% of all entries) of the total score will be awarded the second prize.

8.2.3 Third Prize: The top 31% to 60% (30% of all entries) of the total score will be awarded the third prize.

8.2.4 Honorable Mention: Artwork other than the above will be awarded an honorable mention.

8.2 Special awards

Special award are selected and presented by representatives from participating countries and regions, and the total number will not exceed 30% of the number of participating teams.

In addition, the National Aquatics Center and event sponsors will present special awards reflecting venue and partner recognition.

Online track does not have this award category.

8.3 Audience Choice Award

Audience choice Award to **3 teams** in total, regardless of group or theme, celebrating projects that capture public imagination and engagement.

Online track does not have this award category.

8.4 Award recipient:

Only contestants attending IEYI 2026 are eligible for Trophies, Medals, Special awards, or Audience Choice Award.

Entries must be accompanied by their creators to qualify for judgment.

9 . Contact Information

We welcome any feedback from member institutions regarding the competition format or IEYI 2026. Kindly direct all correspondence to the following email address: ieyi@itccc.org.cn

Your valuable feedback is much appreciated.
